The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply							
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).							
Status

DETAILED ACTION

Applicant's amendment filed on April 19, 2006 has been received.

In view of the amendment where the applicant added limitations for R3 in claim 18, the rejection of claims 18-21 under 35 USC § 112 in the last office action is hereby withdrawn.

In view of the limitations added for R3 in claim 18, and the limitations added such that A2 group is only aromatic amino acid in claim 23, the rejection of claim 18, 19, 20 and 23 under 35 USC § 102(b) in the last office action is hereby withdrawn.

Applicant's arguments that the '934 patent (US Patent 5,846,934, already of record) does not disclose a linear octapeptide are found persuasive. Therefore the rejection of claim 18, 19, 20, 23 and 32-43 under 35 USC § 102(e) in the last office action is hereby withdrawn.

In view of the amendment made to the two independent claims 18 and 23, the rejections of claim 18, 19, 23, 24, 25, 36 and 42 under 35 USC § 103(a) in the last office action are hereby withdrawn.

Claims 1-17 are cancelled.

Claims 18-43 and the newly added claim 44 are presented for examination.

Upon further consideration of the claims and in view of applicant's amendment, a restriction requirement as follows is necessary.

Application/Control Number: 10/712,081

Art Unit: 1614

Election/Restrictions

This application contains claims directed to the following patentably distinct species:

- (A) a compound as defined in claim 18; the applicant is required to specify one single compound of this formula.
- (B) a compound as defined in claim 23; the applicant is required to specify one single compound of this formula.

The species are independent or distinct because they are different compounds with different definitions for the amino acids in the formula. Different compounds have different structures, binding activities and biological effects.

In addition, further species election is required for the type of effects for the method of treatment because different effects have different causative factors and different mechanisms of action and thus the method of the treatment would be different.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, all claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Application/Control Number: 10/712,081

Art Unit: 1614

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

Application/Control Number: 10/712,081 Page 5

Art Unit: 1614

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nancy L. Zhang whose telephone number is (571)-272-8270. The examiner can normally be reached on Mon.- Fri. 8:30am - 5:00pm EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ardin Marschel can be reached on (571)-272-0718. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
